

PFIZER GLOBAL MANUFACTURING
LITITZ, PENNSYLVANIA

Pfizer Global Manufacturing of Lititz, Pennsylvania manufactures consumer healthcare products including Listerine, Lubriderm, Caladryl, Benadryl, and Neosporin, as well as generic pharmaceuticals. The facility is certified to ISO 14001.

ENVIRONMENTAL PERFORMANCE

Past Accomplishments

Pfizer Global Manufacturing of Lititz has demonstrated its commitment to environmental performance in the areas of reduced biological oxygen demand discharges and reduced releases. Since 1997, the facility has:

- **Reduced BOD discharges to water** by 70% through increased employee awareness regarding proper disposal of bulk product, improved procedures for equipment cleaning, and equipment upgrades, such as the installation of solenoid valves.
- **Reduced reportable releases** from 3 per year to 0 through improved training on standard operating procedures and emergency response, through equipment changes such as the installation of level sensors, and through installation of drain plugs.

Future Commitments

Pfizer Global Manufacturing of Lititz also committed to continued environmental improvement through further reductions in energy use, solid waste, hazardous waste, and BOD discharges to water. By 2003, the facility will:

- **Reduce energy use** by 25% through turning off equipment when not in use, installing occupancy sensors and energy efficient lighting, raising temperatures settings within allowable limits, and improving boiler efficiency.
- **Reduce solid waste** from manufacturing by 95% through reducing product waste caused by boiler and chiller downtime and through improving the facility's tank farm to reduce raw material rejects.
- **Reduce hazardous waste** by 88% through changing from a flush-in-place procedure to clean-in-place for line cleaning and flavor changes in mouthwash production.

AT A GLANCE

| | |
|---------------------|---|
| Industry Sector: | SIC 2834 |
| Business: | Manufactures consumer healthcare products |
| Facility Employees: | 500 - 1,000 |
| Accomplishments: | Reduced BOD discharges to water Reduced releases |
| 2003 Commitments: | Reduce energy use Reduce solid waste Reduce hazardous waste Reduce BOD discharges to water |
| Address: | 400 West Lincoln Ave. |

- **Reduce wastewater and BOD discharges** by another 90% through recovering purified water and steam condensate and through implementation of the clean-in-place procedure.

COMMUNITY OUTREACH

Pfizer Global Manufacturing of Lititz reviews, documents, and responds to all relevant communications from external parties. Pfizer solicits and receives input from the community through its participation in various organizations such as Businesses for the Bay, the Susquehanna Valley Ozone Action Partnership, the Lititz Area Wellhead Protection Program Task Force, the Pennsylvania Wildlife Federation, and the Lititz Run Watershed Alliance. Pfizer attends Lititz Borough council meetings and Flood Control Committee meetings and holds its own public meetings and one-on-one discussions with community representatives and local government officials. Pfizer's annual performance report will be made available through the local newspaper, meetings, and on a future website.
